## ESTERHAZY IS SCORED

General Gonse Loudly Declares His Statements to Be Untrue.

## DOINGS OF DAY AT RENNES.

M. Labori Upon Entering the Court-room Was Informed of the Documents General Roget Received From Count Esterhazy.

Rennes, Aug. 23.—Maitre Labori, leading counsel for the defense, and Madame Labori were present in court when the trial by courtmartial of Captain Alfred Dreyfus on the charge of treason was resumed at the Lycee.

As M. Labori was entering the court he was informed that General Roget received documents from Major Count Esterhazy, who is now in London. Counsel was much interested and gleaned all the information possible. On the arrival in court of General Roget it was noticed that he carried a bulky envelope containing the documents referred to.

M. Drieul, one of M. Quesnay de Beaurepaire's witnesses, told a gossip story of meeting Dreyfus at the house of an acquaintance, M. Bodson, in 1884, when Dreyfus was a lieutenant and to seeing the latter in conversation with a man described to the witness as a German attaché. This was the sum of his testimony which was dotted with flashes of unconscious humor as when M. Du Brieul said he told his acquaintance that he could not frequent his house if the German visited him.

The acquaintance, it appeared, excused the fact by saying the German was not his but his wife's friend, which caused general laugh in court, becoming louder as M. Du Brieul remarked that he had no prejudice against Dreyfus for visiting his acquaintance, or rather his acquaintance's wife, adding: "If every officer who is in love with his neighbor's wife is dismissed from the army there would be very few left."

M. Labori took M. Du Brieul in hand and beautifully ascertained that he only knew the visitor was a German attaché because he was told so, and he did not know whether he was a military or a civil attaché. He did not even know his name. Moreover, a foreign military attaché would have had nothing to gain by cultivating the acquaintance of a simple lieutenant as Dreyfus was then.

The next witness, Captain Vallant, testified to seeing Maitre Lehol in Colonel Picquart's office at the beginning of 1896 and Captain Lemonde of the artillery, who followed him, spoke of the notorious ignorance of Esterhazy in artillery matters, showing he could not have divulged what was promised in the bordereau.

Esterhazy Did Not Respond. Esterhazy was called as the next witness, but there was no response and so the court ordered the reading of his evidence as given before the court of cassation. When Esterhazy's deposition had been finished M. Labori asked that Esterhazy's letters to the president of the republic be read in which Esterhazy is said to have threatened, if the scandal continued, that his sovereign, the emperor, would intervene.

General Gonse here asked to be allowed to respond to Esterhazy's testimony as given before the court of cassation and declared in a loud voice that Esterhazy's statement that he was the instrument of the general staff was an absolute lie.

The general traversed Esterhazy's evidence, contradicted statement after statement, and declaring that Esterhazy could only have had relations with Major Du Paty de Clam and the late Lieutenant Colonel Henry. The general denied having had any relations with him.

Counsel asked that the dossier containing the documents relating to the inquiry into the relations of Esterhazy and Paty de Clam instituted by Major Travertier on behalf of the military authorities should be communicated to the court and discussed. To this the government commissary, Major Carriere, replied that he had applied to the military authorities on the subject, but his request had been refused.

Major Carriere replied that he hoped Paty de Clam would be able to come to court in a few days. He added that a medical consultation in this connection would take place and that the decision would be announced soon.

Leading counsel then submitted to General Gonse a number of searching questions on Esterhazy's relations with the general staff. The general as a result became very excited, especially when asked if there was not an intrigue in favor of Esterhazy and if he did not take part in it.

"It is false. It is false," shouted the general.

Finally counsel asked why Esterhazy

was not arrested after the inquiry and General Gonse replied:

"Because General Saussier deemed it proper to leave him at liberty."

"Yes," retorted M. Labori, "but General Saussier must have been deceived by the general staff."

This abrupt declaration accompanied by an expressive gesture was in counsel's best style and caused a sensation. Major Gendron was recalled after General Gonse and supported the latter's statements.

General Boisdeffre then jumped to his feet and denied in the most forcible manner Esterhazy's statements, adding that if he had been present he would have given him the lie with all the contempt he deserves."

Coast Line Contracted.

Washington, Aug. 23.—The recent officials surveys along the southern coast of Porto Rico show that the coast line is much more in error than has been supposed by scientists. Information now at hand discloses the fact that from Ponce to the eastward charted as 50 miles, the actual distance is but 43 miles, necessitating a contraction of the shore line on maps and charts to the extent of seven miles for that stretch alone. If that proportion of error is found to hold good for the whole island its actual area will be greatly circumscribed by the results of the surveys.

Desire the Estate Settled.

San Francisco, Aug. 23.—Letter of administration of the estate of John Mackee Verhoeff, who departed with the Peary expedition for the North pole in 1891 and who never returned have been asked for by his brother Harry Verhoeff who sides in this city. As near as can be ascertained Verhoeff died in August, 1892, on the coast of Greenland. His estate consists of personal property valued at \$5,000, the heirs being the petitioner and a sister, Martha Verhoeff, who resides in Louisville, Ky.

Devlin Incident Closed.

Chicago, Aug. 23.—Senator Jones, chairman of the Democratic national committee, has closed the Devlin incident that disturbed the peace and harmony of the national committee at St. Louis last May and again at Chicago in June by ordering the removal of the present bureau to Washington and authorizing the selection by ex-governor of Missouri of a new editor. Devlin will be out just as soon as Mr. Stone can find the right man to succeed him. That will be within the next 10 days.

To Check Injunctions.

Chicago, Aug. 23.—Chicago central labor organizations will unite in a petition to the United States congress and the various state legislatures to enact laws which will restrict the rights of judges to issue injunctions without hearing evidence from both sides. The petition will recite that numerous injunctions have been granted on ex-parte evidence which have worked hardships on innocent persons against whom they have been directed.

Relief For Hurricane Sufferers.

New York, Aug. 23.—The United States transport McClellan sailed for San Juan, Porto Rico, from Brooklyn, with a relief cargo for suffering Porto Ricans. The cargo consists of 12,000 women's vests, 4,800 calico wrappers, 4,200 men's undershirts, 600 pairs of men's trousers and a varied assortment of other clothing, food, medicines and building materials. The total cash subscriptions for the relief fund now reach \$45,340.

Lost In the Storm.

Norfolk, Va., Aug. 23.—Further details of the terrific storm that raged in the vicinity of Cape Hatteras have been received. In addition to the vessels already reported wrecked are the following: Schooner Aaron Rephard, five lost, three saved; bark unknown, crew of 14, all lost; Diamond shoals lightship, crew of 28, all saved; unknown steamship whose cargo has washed ashore, crew of about 25, all lost.

Meeting With Hearty Responses.

Evansville, Ind., Aug. 23.—Mayor William Alken, Captain J. W. Wartman and others of this city started on a tour of the northern states to invite the governors and other prominent men to meet President McKinley here at the national reunion of the Blue and the Grey October 10, 11, 12 and 13. The reunion is meeting a hearty response from the south and is the outcome of the president's Atlanta speech.

NO AGREEMENT

Reached by Representatives of Glass Cutters and Manufacturers.

Pittsburg, Aug. 23.—The joint wage conference of the glass cutters and manufacturers adjourned without reaching a settlement. The workers demanded an advance of about five per cent, which the managers refused to grant. The glass fitters and manufacturers are still in session and a settlement is predicted.

## A QUESTION OF FUNDS

Confronting the Treasury Department Incident to Army.

## EXTRA EXPENSES IN SIGHT.

Problem of Raising Revenues to Meet Costs of Maintaining Increased Troops Worrying Secretary Gage.

Washington, Aug. 23.—Secretary Gage is engaged in the task of ascertaining whence the funds are to come with which to pay the largely increased army recently determined upon by the president and Secretary Root.

The receipts of the government did not meet the extraordinary expenditures when the army was smaller and the problem of how to meet the cost of 30,000 additional troops gives the treasury department some uneasiness.

These increased expenditures cannot even be approximately figured out. The mere question of pay is easily decided, but to this must be added the enormous expense of additional transports; the greatly increased cost of subsistence, with the army thousands of miles away, will require the expenditure of millions of dollars; the added cost of new equipment for 30,000 men and the innumerable items that go to make an effective fighting army, properly clothed, thoroughly equipped for duty.

All these things are expensive and their cost is more or less conjectural. Paymaster General Bates says it would be impossible to give a rough idea of the cost of a regiment or of the military establishment in the Philippines without weeks of careful investigation of accounts. This is now being done for the annual report of the secretary and until definite figures are known the paymaster general's department will not make a guess. With plans matured, therefore, that involve expenditures running well up into nine figures Secretary Gage, on whom is placed the responsibility of providing funds, has begun to take his bearings and prepare to meet these new demands. The administration is unwilling to make another bond issue, but if it cannot be avoided this will be done.

It can be said on the authority of treasury officials who have been giving the matter careful study for several weeks that the fifty-sixth congress will not lessen the war taxes imposed by the act of June 13, 1898. The enormous expenditures to be incurred in the next two years not only forbid an enlargement of the general scheme and a stoppage of the holes through which those supposed to have been taxed have escaped.

Congress will also be asked to remove the ambiguity of the language imposing a stamp tax on proprietary medicines so as to include many that have hitherto been able to escape through technicalities and by the disguising of their products. The revenue from the tax on proprietary medicines is not so large as was estimated and it may happen that congress will be asked to increase the present tax of two and one-half cents on the dollar on all patent medicines, perfumes and cosmetics.

It has become apparent to revenue officials that if any adequate increase in the revenues is to be realized it must come from the further imposition of stamp taxes. Just where to impose these taxes is the question now bothering those in charge. One of the propositions that finds favor among the revenue officials is the placing of a stamp tax on all slot machines in which there is any element of chance.

Another proposition that has met with favor at the hands of the treasury department is one to put a stamp tax on all firearms except such as are used for national, state or municipal purposes. This would in all probability be a pretty stiff tax and would yield a large revenue, for the sale of firearms in the United States reaches a total of hundreds of thousands of dollars annually. A similar tax, only less burdensome, is suggested in connection with fireworks.

It will thus be seen that the department has gone into a field in search of revenues that were discarded by congress when the war revenue bill was up for consideration.

TO CARRY TROOPS.

Arrangement For Transportation of Soldiers to the Philippines.

Washington, Aug. 23.—The quartermaster's department of the army, which is employing every means at its disposal for the transportation of troops to the Philippines has prepared the following statement on the subject: "The following ships will be available to carry the first ten regiments

of recruits to Manila, getting them there about the first of November: Puebia, Warren, Columbia, Charles Nelson, Sherman, Belgian King, Hancock, Grant, Tacoma, Sheridan, Glenogle, Pennsylvania, Valencia and Zealandia, with probably two or three additional chartered vessels.

"The above will not interfere with getting the last 10 regiments to Manila by the latter part of December. The quartermaster's department has in addition to the above ships for the purpose of carrying the second 10 regiments, the following: City of Para, Tartar, Ohio, Newport, Indiana, Morgan City, Senator, City of Sydney, St. Paul, Puebia, from San Francisco, and three other boats from New York."

Daring Jail Delivery.

Des Moines, Ia., Aug. 23.—A daring and clever jail delivery from the Polk county jail set at liberty four prisoners. Watchman Viggars had led a trusty prisoner out of his cell to clean the halls. When he returned his man to the cell he was assaulted by three other prisoners who had been locked in a steel cage. The men inside had picked the lock, and, throwing the door open as Viggars passed, threw a blanket over him, hound and gagged him and locked him in the cell they had left. They then locked every door in the cell room and walked out to freedom.

Agreed on Fusion.

Omaha, Aug. 23.—Nebraska Democrats, Populists and Silver Republicans met in this city and fused on nominations for judge of the supreme court and two members of the regents of the State university. Former Governor Silas A. Holcombe was nominated for supreme justice by the Populists and endorsed by the other two conventions. The platforms endorse and emphasize each and every plank of the national platform adopted at Chicago in 1896, and declare against trusts and the Philippine war. Bryan addressed all three conventions.

Wrecked by a Hurricane.

Baltimore, Aug. 23.—Captain Bode of the steamship Catania which arrived from Daiquiri, Cuba, reports that on Aug. 20, in latitude 30.33, longitude 75.38, he rescued from a raft Arthur Necalass of Gothenburg, one of the crew of the Norwegian bark Drot. He says that on Aug. 11, when off the Florida straits, the Drot got into the center of a hurricane. The vessel was wrecked. Nothing is known of the fate of the crew.

Cotton Crop Blasted.

Dallas, Tex., Aug. 23.—The hot winds which have prevailed for the past month have destroyed all chance of a large cotton crop in Texas. Reports from all over the northern and central sections of the state are that the crop will not average more than a quarter of a bale to the acre. This indicates not to exceed two million bales for the entire state.

Permission Refused.

London, Aug. 23.—It is said that Captain "Ben" Parker, the skipper of Emperor William's yacht Meteor, at the suggestion of Sir Thomas Lipton, the owner of the America's cup challenger, asked his majesty's permission to sail Shamrock in her coming races in the United States and received a reply peremptorily forbidding him to do so.

Fired on the Mob.

Amsterdam, Aug. 23.—The disturbances at Hilversum, where martial law has been proclaimed, continued. The mob stoned the troops who are occupying the town and the cavalry charged on the rioters with drawn swords. Finally the infantry fired on the mob, killing one person and wounding two others. Quiet was restored.

Order For Cartridges.

Birmingham, England, Aug. 23.—A firm has received an order for 14,000,000 Mauser cartridges for urgent delivery to South Africa. Secrecy is being observed to the exact destination of the cartridges, but it is said that the Boers alone use Mauser rifles in that territory.

## WAR CLOUD IN AFRICA.

British Subjects Said to Be Secretly Aiding the Boers.

## AMBUSCADES FOR TROOPS.

Owing to Rumors of Intention of Boers to Destroy a Railroad Bridge Police Have Been Stationed at Colenzo.

Pietermaritzburg, Natal, South Africa, Aug. 23.—In connection with the rumor that there are many Boers who are British subjects and who outwardly sympathize with the British while in reality they are secret agents of President Kruger of the Transvaal republic, the premier of Natal declared that it was the intention of the British government to take steps to detect and punish any British subjects co-operating with the enemies of the queen.

It is alleged that much secret information has been conveyed to President Kruger and that even ambushes have been prepared for the British troops in the event of war by these secret agents.

A force of police has been ordered to Colenzo, owing to rumors of the intentions of the Boers to destroy the railroad bridge at that place.

Mobilizing Troops.

Cape Town, Aug. 23.—Although the cabled summary of the counter proposals for the Transvaal government to Great Britain's proposition for a joint commission to inquire as to what effect the reform franchise measures would have on the Outlanders is probably incomplete, it undoubtedly gives the general lines accurately. The Mafeking horse regiment is mobilizing rapidly. Several hundred recruits have arrived and been equipped here and have joined Vivian's camp. Every train is bringing fresh recruits. It is rumored that 300 Boers have formed a laager on the border.

Full Text Received.

London, Aug. 23.—The secretary of state for the colonies, Joseph Chamberlain, has received the text of the Transvaal reply to the proposals of the British government and now has them under consideration. The members of the cabinet are within reach, but until the government has decided upon what course to pursue, Mr. Chamberlain is unwilling to divulge the contents of the message from South Africa.

Expecting World to End.

St. Petersburg, Aug. 23.—Reports from southern Russia to the effect that a helief of the approaching of the end of the world is causing a panic among the uneducated at Kharkov, the capital of the government of that name. Workmen are leaving in large numbers wishing to spend what they consider their last days at their village homes. The factory owners have asked the police to stop this immigration in order to prevent the ruination of business.

Both Bodies Found.

New York, Aug. 23.—The bodies of John Landauer, 25, and Josie Engal, 15, were found in a vacant lot. Both had been shot through the heart. In Landauer's right hand was a revolver. The girl disappeared from home a week ago. Landauer who, with his wife and three children, lived in the same house as Engals, disappeared at the same time. On the body of Landauer was found a note in which he said he was about to end all his troubles.

Mayor Jones Booked.

Frankfort, Ky., Aug. 23.—State Chairman Bridgeford of the Populist party, said that the Populist state campaign will be opened on the first Monday in September with 500 Populist speakers, who will be heard in every county. Among outside speakers who are to be here during October are Mayor Jones, of Toledo; Ignatius Donnelly, of Minnesota; Colonel Jesse Harper, of Illinois, and "Cyclone" Davis, of Texas.

Wholesale Arrest of Negroes.

Little Rock, Aug. 23.—Over 40 negroes are in the Pulaski county jail as a result of a concerted effort on the part of the authorities to run down the man who a few days ago committed assaults on five white women in this city. One, Ed Wright, was positively identified by Mrs. Kennedy as her assailant, and he was held to the grand jury without bail. Every precaution has been taken to prevent a lynching.

Milatto Almost Lynched.

Hayana, Aug. 23.—An attempt has been made at Matanzas to lynch a mulatto named Gener, who was formerly a servant of a Spanish guerilla chief. Gener after the war went to the Canary islands and returned to Cuba recently in quest of his family. The police saved him.

THE Louisville Dispatch quotes an editorial from the Cumberland Courier urging Democrats to support John Young Brown. There's but one thing that would please the Courier better than to see them vote for Brown, and that is to see them vote for Taylor; it is a Republican paper.

### A COSTLY POLICY.

"It comes high," this policy of expansion and conquest, is the judgment of the Philadelphia Ledger, Republican, but regarding with disfavor Mr. McKinley's Philippine policy. Speaking of the increase of the army to 100,000, on the heels of The Hague conference it declares it an inevitable sequence of Mr. McKinley's plans. It goes on:

"This policy, as it has been daily illustrated, does not mean alone the expansion of territory; it means, among a goodly number of other things, new and strange, an army of 100,000 effectives, a navy of many and formidable ships, requires enormous revenues, all which must necessarily be furnished by the people. Not only are the Spanish war taxes still on months after peace was declared, but they must be expanded indefinitely in order to keep pace with the policy of expansion. Onerous and burdensome as they are, the revenue supplied by them still falls far behind the expenditures, as for instance the treasury report for July shows that the Government's income from all sources was far less than its outlay, the cost of the Philippine war alone for the last month having been upward of \$10,000,000. There is something exceedingly attractive in playing at expansion. The game is undoubtedly a pretty one, but, all things considered, is the game really worth the candle?"

## NEW MONEY ORDERS.

An Improved Form to be Introduced After Sept. 4th—Decided Changes Proposed.

The Postoffice Department has adopted a new form of domestic money orders, which will be introduced gradually, or as supplies of the old form become exhausted, at the various postoffices throughout the country after the 4th of September.

The new form is somewhat smaller than the order now in use. Its dimensions are about those of the ordinary bank draft. It has two adjuncts—the advice, or notification, to be sent by the issuing to the paying postmaster, it being a reproduction of the order through the use of carbonized paper (the manifold process), and a receipt for the amount, to be furnished by the issuing postmaster to the remitter.

On the back of the order a separate space has been provided for the stamps of banks through which it may be passed for collection.

In color the order is blue, having a light blue ground, with fine, closely interlaced tinted lines of geometrical lattice work, of darker shade. In the center is an escutcheon bearing the words "Postal Money Order" in shaded capital letters of the same two tints of blue. The tint of the order and the lattice work will serve to prevent imitations; but, as an additional safeguard against counterfeiting, a horizontal water mark, composed of the initials U. S. M. O., in broad capital letters, has been wrought into the paper on which the new forms are printed.

Through the process mentioned (the carbon, or manifold process) the order and the advice are produced simultaneously; by the same operation the essential particulars of name of payee, date, amount and place of payment, are written in the order. The liability to mistake is thus greatly lessened, and a saving of time effected. Discrepancies between order and advice, which, by entailing additional correspondence and causing delay in payment, have heretofore been a source of annoyance to the department and postmasters, as well as to remitters and payees, are prevented, and absolute uniformity between the order and advice insured. The dispatch of advices, which hitherto have not been made out until after issue of the orders, will also be accelerated.

In shape and size the new order is deemed a decided improvement over any other form of money order hitherto adopted by the department. Its dimensions being about those of the ordinary bank draft, it may be conveniently handled when mixed with different kinds of commercial paper. It is believed that the change made in this respect will be heartily approved by banks and business people generally.

### VIVID EPITOME

Of McKinleyism From March 4, 1897, Up To the Present Date.

[Baltimore Sun.]

With the advent of Mr. McKinley to power the Republican orgies began, with the enactment of a tariff framed in the interest of the monopolies and trusts, designed for the payment of campaign debts, and to lay the favored sections, classes and interests under fresh obligations to the present administration as the dispenser of wealth. This was followed by the declaration of war against Spain under the false pretense of assisting the people of Cuba to achieve their independence, without any ulterior thought of territorial greed or aggression on our own part. When the enormous outflow of patronage and favoritism caused by the Spanish war was checked by the premature termination of hostilities with Spain, Mr. McKinley paid \$20,000,000 for the privilege of starting another war in another part of the globe against an unoffending people, whose only crime was that they, too, like the Cubans, desired to be free. And the Republican Saturnalia goes on. The public money continues to be wasted like water, and the blood of Americans and Filipinos is mingled in one stream to be coined into dollars by the favored few who have influence or "pull" and can be expected to work for Mr. McKinley's re-election.

### Over 100,000 Goebel Buttons.

Since the opening of the Democratic campaign Secretary Percy Haly, of the State Central Committee, has distributed 105,000 Goebel buttons. He has requests for 100,000 more, and they will be ready for distribution soon.

As long as the first installment of 100,000 buttons lasted, they were sent to towns where Goebel and Blackburn were to speak, as well as to other places where crowds were gathered. The demand for them indicates a remarkable degree of interest in the candidacy of Senator Goebel.

In this city 1,500 have been given out. The supply is exhausted, but more will be received in a few days by Chairman Slattery, of the County Committee.

James Hasson, Jr., filed suit in the Circuit Court Wednesday, against Policeman J. P. Wallace for \$1,000 damages. The latter's bondsmen John Duley and I. N. Foster are also made defendants.

The petition charges that some time in July Policeman Wallace "wrongfully and without warrant" arrested plaintiff, "without notifying him of the offense with which he was charged or of any cause for his arrest," and that while under arrest Mr. Wallace "unnecessarily, unlawfully and cruelly" assaulted him and beat him about the head and face, and that by reason of said beating the sight of his right eye was totally destroyed. He also charges that he was thrown in jail, and was unable to procure medical treatment for some time.

The BULLETIN recently mentioned the case. Mr. Wallace claims that Mr. Hasson attempted to escape from him after the arrest and that he struck him but once.

Mr. C. Burgess Taylor is plaintiff's attorney.

## Superior and Kentucky DISC DRILLS

Are King and Queen of all Drills. Their superiority over all competitors are too well known to need comment; suffice it to say that we placed over sixty of these Drills the past season and have yet the first complaint from a single purchaser. On the other hand every one who used them stand ready and willing to give their testimony as to the superior work done by them, and their unanimous verdict is if you expect to purchase a Drill this season, get either the

and no other. Do not delay placing your orders and there will be no disappointments, as is the case each season when we are forced to resort to the river and express, which makes an additional expense. Every Drill is warranted to be just as represented. Do not allow yourself to be talked into buying some inferior Drill for the sake of saving a few dollars. Remember the cheapest is not the best, but the best is always the cheapest. Respectfully,

## HAVING A GAY TIME NOW.

But When Winter Comes Will Want Aid from Charity Funds.

[Bourbon News.]

The servant question is getting to be a serious matter in Paris and other Kentucky towns. If a family is lucky enough to have a cook during the week it's a ten to one chance that it will be cookless on Sunday. The reason is that picnic meetings have been held every Sunday during the summer at Paris, Cynthiana or Millersburg, and every one who can get the price goes on the excursion. Sunday one of these meetings was held in Paris and upwards of a thousand colored people from Maysville, Carlisle, Millersburg, Cynthiana, Winchester, Lexington and Georgetown came to Paris in carriages or on excursions. Many of these people who had money, to ride around town in carriages, rubber-tired buggies and traps, will be applying to local charity committees this winter for aid.

Many families almost have to beg their cooks to work during the summer, besides paying them good wages.

Paris people should try the experiment of importing white help. The colored people who have money to blow in on excursions and rubber-tired vehicles and at camp meetings in summer should be marked for reference when they apply this winter for aid from the county or the Elk Charity Fund.

## THE BARLOW MINSTRELS.

They Will Be the Attraction at the Opening of Opera House Monday Night.

Those who enjoy a good minstrel performance should be on hand at the opening of the opera house next Monday evening. Barlow Bros. company of black-face artists will be the attraction. Read what the Augusta, Ga., Star says of them:

"A beautifully draped stage, filled with people dressed in magnificent costumes; the orchestra playing 'The Star Spangled Banner,' a round of applause as the curtain ascended, was the opening of the first part of the performance of the Barlow Minstrels at the Academy. The company succeeded in giving a refined and very enjoyable entertainment. The orchestra music was well rendered, Harry Ward, Lew Baldwin, Fred Russell and Hugh Cannon were the principal comedians and their 'work' was the cause of much laughter. Noticeable among the specialties are Harry Ward, the cleverest monologist of the century; Coburn and Baldwin, up-to-date musicians; Willie Hale, globe and club expert, and the marvelous Zella. The audience was liberal with applause."

Popular prices—25, 35 and 50 cents.

Collins, of Covington, Ky., as to the earnings since February, 1893, of the towboat G. W. Moredock. Ferguson claims that he has an eighth interest in the boat and seven barges, owned jointly by the trio, but that Juhling and Collins have operated the boat to their own profit, and have refused to make any accounting to him."

All for Goebel.

[Paris Koutuckian.]

In a list of delegates to the anti-Goebel convention the names of five Democrats supposed to reside in the Ruddell's Mills precinct were published. A correspondent at Shawhan writes: "One of the delegates announced to Bolters' convention resides in Harrison County. We do not know his preference. Those of the other four will vote the straight Democratic ticket. Have not yet ascertained as to the other one."

Since the above was put in type, it has been learned that the other person referred to will vote for Senator Goebel.

"I have by some surgeon Shylock on thy charge to stop his wounds lest he do bleed to death." "People can bleed to death. The loss of blood weakens the body. It must follow that gain of blood gives the body strength. The strengthening effect of Dr. Pierce's Golden Medical Discovery is in large part due to its action on the blood-making glands and the increased supply of pure, rich blood it produces. It is only when the blood is impoverished and impure that disease finds a soil in which to root. The 'Discovery' purifies the blood and makes it antagonistic to disease. When the body is emaciated, the lungs are weak, and there is obstinate lingering cough, 'Golden Medical Discovery' puts the body on a fighting footing against disease, and so increases the vitality that disease is thrown off, and physical health perfectly and permanently restored. It has cured thousands who were hopeless and helpless, and who had tried all other means of cure without avail.

Twenty-one one-cent stamps to cover expense of mailing only will obtain a copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, in paper cover. Send thirty-one stamps if cloth binding is preferred. Address Dr. R. V. Pierce, Buffalo, N. Y.

The Murray-Hart Company last evening again presented their funny farce-comedy, "The Woman Hater." This comedy was one of last week's winners and that it is all that had been claimed for it was clearly shown by the hearty laughter and applause which greeted every turn of the play.

To-night the clever and highly laughable farce, "My Uncle from Japan," which was so well received last week, will be the bill. This is probably the best of all the farces in the Murray-Hart repertoire. Even if you have seen it before, it is well worth seeing again.
